Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 5 is rejected under 35 U.S.C. 103(a) as being unpatentable over Treyz et al (6,526,335) in view of Langseth et al (2003/0194065).

As per claim 5, Treyz teaches a communication device establishing a connection to a communication line outside a car to transmit data input through the server over the communication line for receiving results of the communication in form of voice (figures 1, 2, 4, 13). In addition, Treyz teaches the moving terminal receiving information, including map or traffic information (column 20, lines 31-38, figures 15 and 29). Regarding the audio, voice-recognition, and voice synthesis, Treyz supports these functions in column 13, lines 36-50. Treyz discloses input means for starting the communication device by one operation and establishing communication for the audio interactive server (figures 1 and 2). Further, Treyz discloses the moving terminal device automatically transmits predetermined information of non-voice (column 15). Treyz does

Art Unit: 2144

not teach notifying a termination of communication with the moving terminal. However, it would have been obvious to one skill in the art that if no information is needed from the terminal, it will be no communication. Treyz does not teach the ID information and the server certification. However, Langseth teaches it in paragraph [0189], [0213]). Thus, it would have been obvious to one skill in the art to combine Treyz's invention with Langseth's ID information and server certification in order to provide systems and methods for converting the content to a speech output, establishing telephone voice communication with the user, and transmitting the speech output and interact with available travel components and options to schedule these travel components.

Allowable Subject Matter

Claims 6 and 20 are allowed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

Art Unit: 2144

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
